DI31002: Information Security

Assignment Part 2: Ethical Hacking

Deadline for Submission: **23:59 (11.59pm)** Friday 4**th** December **202**6

Hand in Method: One team member to submit a **PDF** file with the report named after the team to the assignment document on My Dundee.

Date Feedback will be Received by: This will be received within the University's 3-week policy which for this assignment is Friday 25th December 2026.

Penalty for Late Submission: One grade point per day late (meaning if a submission is one day late and marked as a C2 it will receive a C3 grade). A day is defined as each 24-hour period following the submission deadline including weekends and holidays. Assignments submitted more than 5 days after the agreed deadline will receive a zero mark (LS).

Percentage of Module: Part 2 of the Assignment is worth 50% of the assignment mark (20% of the module).

Assignment Part 2: Ethical Hacking - Marking Scheme

Your group mark is determined as follows:

- 40% by the analysis of the 5 compromised authentications you choose (Task 1),
- 40% by the classification of all other authentications as secure or insecure (Task 2),
- 20% by the evaluation from the other teams.

You will earn up to 10 points for each of the 5 compromised authentications you choose:

- 0-5 points for the clarity and correctness of your description of the vulnerability and its location in the code,
- 0-3 points for the clarity and correctness of the description of the exploit, and
- 0-2 points for the demonstration of the exploit in the lab.

Task 1 – Classification (40%)

You will earn up to 10 points for the classification of all programs into secure or insecure.

All backdoored programs and normal programs will be mixed together before being distributed to every group.

You will earn up to 10 points for the classification: full marks are awarded if every program is classified correctly.

Task 2 – Backdoor Analysis (40%)

Each group will choose the programs they believe contain backdoors and perform a detailed analysis.

The analysis will be evaluated and scored by the group that originally wrote the analysed program.

Evaluation by Other Teams (20%)

Each group will evaluate the programs produced by the other teams.

Evaluations must be submitted as ranked scores.

Your group's final mark for this component is the average of the scores awarded by the other teams.
